

IMPORTANT SAFETY MEASURES

The use of trussing and lifting equipment in a temporary or mobile installation is the sole responsibility of the operator.

He must respect the factory guidelines concerning the load limits as well as the safety codes of material and staff. The choice of trussing and the stand capacity must be adapted to the load.

Adequate safety measures must be taken when people work under the loads carried by the truss and the stands. Safety steel slings and chains must be used on every item hung on the truss.

The operator must take into account the weight of the holding truss on the stand and deduct it from its allowable load.

All electrical devices hung on the stand or by the stand must absolutely conform to the technical codes concerning electrical devices (EC norms).

- **THE STAND MUST ONLY BE OPERATED IN AN EXACTLY VERTICAL POSITION**
- **SECURE THE STAND TO THE GROUND WHEN ITS USED ON A SLOPING SURFACE**
- **LOAD THE STAND USING ONLY MOBIL TECH ACCESSORIES (ADAPTERS, SAUCERS...)**
- **THE LOAD MUST BE CENTERED OR EVENLY DISTRIBUTED ON THE STAND.**
- **BE CAREFUL THAT THE LOAD DOES NOT SLIDE TO AVOID THE POSSIBILITY OF ANY OVERHANG**
- **NEVER LET THE CABLE ONLY SUPPORT THE ENTIRE LOAD.**
- **ALWAYS USE ALL THREE LOAD HOLDING SYSTEMS.**
- **NEVER MOVE THE STAND WHEN IT IS LOADED**
- **NEVER USE THE STAND TO CARRY PEOPLE**
- **NEVER LEAN A LADDER ON THE STAND**
- **NEVER LUBRICATE THE WINCH BRAKE**
- **NEVER EXCEED THE ALLOWED LOAD LIMITS**
- **ALL SLIDING AND ROTATING MECHANISMS USED IN BAD WEATHER MUST BE REGULARLY LUBRICATED.**
- **4 SECURITY CABLES PER STAND MUST BE USED IF THE STANDS ARE OPERATED IN OUTDOOR OR IN AN UNSTABLE ENVIRONMENT, CONNECTING TIGHTLY THE TOP-MAST COLLAR IN AN ANGLE OF APPROXIMATELY 45 DEG DOWN TO SECURE ANCHORING POINTS**
- **IN COMPLIANCE WITH THE LOCAL LAW, THE ANNUAL CONTROL OF THE ELEVATOR BY AN AUTHORISED PERSON IS COMPULSORY.**

During the guarantee period, we undertake to repair, free of charge any damage attributable to faulty materials or workmanship, for a period of 12 month after date of purchase provided that the appliance is forwarded, freight paid, to our works or one of the Mobil Tech Intl. contract service organisations. The guarantee does not cover damage due to negligent handling, overload or parts subject to normal wear and tear. The fitting of replacement parts not supplied by us or modifications of our design by third parties also invalidates the guarantee. In case of a claim under the guarantee, please attach this voucher and purchase receipt after entering the appliance No. in the space above.
